

HLTAID009 Provide cardiopulmonary resuscitation

This nationally recognised course describes the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) guidelines. This course does NOT address other aspects of life support or first aid.

HLTAID009 Provide cardiopulmonary resuscitation (CPR) is a nationally accredited and will provide all participants with the skills and knowledge to be confident in providing CPR and use an AED in a range of situations, including community and workplace settings.

Certification

Upon successful completion of enrolment, training and assessment, competent learners receive a Statement of Attainment for: HLTAID009 Provide cardiopulmonary resuscitation (valid for 12 months)

Learners can do a refresher course with METS and recertify their skills at any time.

Pre Requisites

Participants must be 14 years of age or over (under 18s must provide a parent or guardian consent). This course requires every participant to complete a variety of First Aid scenarios including practical assessments. If your health/fitness restricts you from completing all required scenarios, you still will be able to participate but may not be eligible to receive the nationally-recognised First Aid certificate.

Delivery

Half day face to face workshop + Online pre-course questions

All learners are required to complete their pre course work via METSOnline prior to attending

Cost

\$70 per person

Ask about our discounted group bookings. (min of 10 p.booking)
